2. A Party applying a global safeguard measure, from which imports from the other Party is initially excluded pursuant to paragraph 1 of this Article, shall have the right to subsequently apply a global safeguard measure to imports from the other Party, if the investigating authority determines that the other Party's share of imports of the product concerned in the importing Party exceeds 3 (three) per cent of total imports.

Application of Bilateral Safeguard Measures

1. Where, as a result of the reduction or elimination of a customs duty under this Agreement, originating goods of a Party specified in Annex 1 (Schedules of Tariff Commitments) are being imported into the territory of the other Party (hereinafter referred to as “preferential imports”²) in such increased quantities, in absolute terms or relative to domestic production, and under such conditions as to constitute serious injury or threat thereof to the domestic industry producing like or directly competitive goods in the territory of the importing Party the importing Party may apply a bilateral safeguard measure to the extent necessary to remedy or prevent the serious injury or threat thereof, subject to the provisions of this Section.

2. If the conditions set out in paragraph 1 of this Article are met, the importing Party may apply a bilateral safeguard measure only in the form of:

(b) increase of the rate of customs duty on the originating good to a necessary level not exceeding the most-favoured-nation applied rate of customs duty in effect at the time the bilateral safeguard measure is applied.

3. Bilateral safeguard measures shall only be applied upon demonstrating clear evidence that increased preferential imports constitute serious injury or are threatening to cause serious injury.

4. In the proceeding to determine whether increased preferential imports constitute serious injury to a domestic industry under the terms of this Article, a Party’s investigating authority shall evaluate all relevant factors of an objective and quantifiable nature having a bearing on the situation of that industry, in particular, the rate and amount of the increase in preferential imports of the product concerned in absolute or relative terms to domestic production, the share of the domestic market

² For the purposes of this Section “preferential imports” – imports of originating goods under preferential tariff treatment.

taken by increased preferential imports, changes in the level of sales, production, productivity, capacity utilisation, profits and losses, and employment.

5. A threat of serious injury shall be understood to mean serious injury that is clearly imminent. A determination of the existence of a threat of serious injury shall be based on facts and not merely on allegation, conjecture or remote possibility.

6. A Party's investigating authority shall demonstrate, on the basis of objective evidence, the existence of the causal link between increased preferential imports of the product concerned and serious injury or threat thereof. In this respect, due consideration shall be given to other factors which are also causing injury to the domestic industry at the same time, including imports of the same product from other countries, and such injury shall not be attributed to increased preferential imports.

7. A Party shall apply a bilateral safeguard measure only following a bilateral safeguard proceeding by the Party's investigating authority.

8. A Party shall promptly notify in writing the other Party upon initiating a bilateral safeguard proceeding and the reasons for it. Such notification shall include:

15. Upon the request of any Party, sent within 30 (thirty) days after the receipt of the notification under paragraph 10 of this Article, the Parties shall immediately enter into consultations to arrive at a mutually agreed solution, including compensation. If a mutually agreed solution is reached, this solution shall be laid down in writing and shall be binding upon the Parties. If no mutually agreed solution is reached within 60 (sixty) days from the date of the receipt of the notification referred to in paragraph 10 of this Article, the importing Party may apply a bilateral safeguard measure to resolve the problem and, in the absence of mutually agreed compensation, the Party, against whose good the bilateral safeguard measure is applied, may take a compensatory action.

16. The compensatory action shall normally consist of suspension of concessions having substantially equivalent trade effects and/or concessions substantially equivalent to the value of the additional duties expected or as a factual result of the bilateral safeguard measure. The Party taking a compensatory action shall apply the action only for the minimum period necessary to achieve the substantially equivalent trade effects and in any event after the bilateral safeguard measure entered into force, only while the bilateral safeguard measure is being applied.

17. The compensatory action shall be immediately notified to the other Party in writing at least thirty (30) days before the application of a compensatory measure. The notification shall contain:

(a) a description of the compensatory measure, including a description of the equivalence of the compensatory measure;

20. A bilateral safeguard measure shall be taken for period not exceeding 2 (two) years. The period of application of a bilateral safeguard measure may be extended by up to 1 (one) year, if there is evidence that it is necessary to remedy or prevent serious injury or threat thereof and that the industry is adjusting.

21. A bilateral safeguard measure shall not be applied in the first year from the date of entry into force of this Agreement.

22. With respect to bilateral trade neither Party shall apply, with respect to the same good, at the same time:

on that good is to be eliminated in accordance with Annex 1 (Schedules of Tariff Commitments).

If, in its final report, the arbitration panel determines that a measure at issue is inconsistent with the obligations under this Agreement, or that the Party complained against has otherwise failed to carry out its obligations under this Agreement, the Party complained against shall, whenever possible, eliminate the non-conformity with this Agreement.

2. No later than 30 (thirty) days after the issuance of the final report of the arbitration panel, the Party complained against shall notify the complaining Party of the time it will require for compliance with the final report (reasonable period of time), if

immediate compliance is not practicable. The disputing Parties shall endeavour to agree on the reasonable period of time.

3. If the disputing Parties fail to agree on the reasonable period of time within a period of 45 (forty-five) days after the issuance of the final report of the arbitration panel, the complaining Party may, no later than 50 (fifty) days after the issuance of the final report, request in writing the original arbitration panel to determine the length of the reasonable period of time. Such request shall be notified simultaneously to the other disputing Party. The original arbitration panel shall issue to the disputing Parties its determination on the length of the reasonable period of time no later than 20 (twenty) days after the date of the submission of the request.

4. In the event that any member of the original arbitration panel is no longer available, the procedures set out in Article 12.8 (Composition and Establishment of the Arbitration Panel) shall apply. The reasonable period of time may be extended by mutual agreement of the disputing Parties at any time before its expiry.

6. In the event that there is disagreement between the disputing Parties concerning the existence or the consistency of any measure notified under paragraph 5 of this Article with the provisions of this Agreement, the complaining Party may request in writing that the original arbitration panel make a determination on the matter. Such request shall be notified simultaneously to the other Party, and shall identify any specific measure at issue and the provisions referred to in Article 12.3 (Scope) that it considers the measure to be inconsistent with, in a manner sufficient to present the disagreement clearly. The original arbitration panel shall issue to the disputing Parties its determination no later than 45 (forty-five) days after the date of the submission of the request.

7. In the event that any member of the original arbitration panel is no longer available, the procedures set out in Article 12.8 (Composition and Establishment of the Arbitration Panel) shall apply. The time limit for issuing the determination shall be no later than 60 (sixty) days³ after the date of the submission of the request referred to in paragraph 6 of this Article.

Article 12.13

Compensation and Suspension of Concessions or Other Obligations

1. If the Party complained against fails to notify any measure taken to comply with the final report of the arbitration panel in accordance with Article 12.12

² For greater certainty, the period of 35 (thirty-five) days does not include any days suspended pursuant to paragraph 7 of Article 12.8 (Composition and Establishment of the Arbitration Panel).

³ For greater certainty, the period of 60 (sixty) days does not include any days suspended pursuant to paragraph 7 of Article 12.8 (Composition and Establishment of the Arbitration Panel).

(Implementation of the Arbitration Panel Report), or if the arbitration panel determines that any measure notified under Article 12.12 (Implementation of the Arbitration Panel Report) does not exist or is inconsistent with any provision of this Agreement, the Party complained against shall enter into negotiations with the complaining Party, with a view to reaching a mutually acceptable agreement on compensation.

2. If the disputing Parties fail to agree on compensation within thirty (30) days after:

(a) the expiry of the reasonable period of time; or

(b) the issuance of the arbitration panel's determination that any measure notified under Article 12.12 (Implementation of the Arbitration Panel Report) does not exist or is inconsistent with any provision of this Agreement,

as the case may be, the complaining Party has the right, upon notification to the Party complained against, to suspend concessions or other obligations arising from this Agreement of equivalent effect to those affected by the measure that the arbitration panel has found to be inconsistent with this Agreement. The notification shall specify the level of concessions or other obligations that the complaining Party intends to suspend and indicate the reasons on which the suspension is based. The complaining Party may begin implementing the suspension 20 (twenty) days after the delivery of its notification to the Party complained against, subject to paragraph 4 of this Article.

3. In considering what concessions or other obligations to suspend pursuant to paragraph 2 of this Article:

(a) the complaining Party should first seek to suspend concessions or other obligations with respect to the same sector as that in which the final report of the arbitration panel referred to in Article 12.11 (Interim and Final Arbitration Panel Report) has found an inconsistency with the obligations under this Agreement;

(b) if the complaining Party considers that it is not practicable or effective to suspend concessions or other obligations with respect to the same sector, it may suspend concessions or other obligations with respect to other sectors; and

(c) the complaining Party will take into consideration those concessions or other obligations the suspension of which would least disturb the functioning of this Agreement.

4. The Party complained against may request in writing the original arbitration panel to make a determination on whether the level of concessions or other obligations that the complaining Party intends to suspend is equivalent to those affected by the measure that the arbitration panel has found to be inconsistent with this Agreement. Such request shall be notified to the complaining Party before the expiry of the 20 (twenty)-day period referred to in paragraph 2 of this Article. The original arbitration panel, having sought, if appropriate, the opinion of experts, shall issue to the disputing Parties its determination no later than 30 (thirty) days after the date of the submission of the request. Concessions or other obligations shall not be suspended until the arbitration

panel has issued its determination and any suspension shall be consistent with the arbitration panel's determination.

5. ANNEX 2

PRODUCT SPECIFIC RULES

General Notes

For the purposes of this Annex:

1. The first column of the list contains chapters, headings or subheadings and the second column sets out descriptions of the goods. Goods in this list are determined solely by the HS codes of the goods. The names of the goods are used only for convenience.

Where, in some cases, the entry in the first column is preceded by an “ex”, this signifies that the origin criterion in the third column applies only to the part of that subheading, heading or chapter as described in the second column. In these cases, the goods are determined both by the HS codes and by description.

2. **“Chapter”** means a chapter of the HS (2 digits);

“Heading” means a heading of the HS (4 digits);

“Subheading” means a subheading of the HS (6 digits);

“CTC” means change in tariff classification at the HS 2, 4 or 6-digit level (CC, CTH, CTSH);

“CC” means that all non-originating materials used in the production of the final goods have undergone a change in tariff classification at the HS 2-digit level (change in chapter);

“CTH” means that all non-originating materials used in the production of the final goods have undergone a change in tariff classification at the HS 4-digit level (change in heading);

“CTSH” means that all non-originating materials used in the production of the final goods have undergone a change in tariff classification at the HS 6-digit level (change in subheading);

“QVC [...] %” means that percentage of the qualifying value content which is calculated using the formula set out in Article 3.5 (Calculation of Qualifying Value Content), is not less than [...] per cent;

“CTC or QVC [...] %” means either the requirement to undergo a change in tariff classification at the HS 2, 4 or 6-digit level or to reach the qualifying value

content which is calculated using the formula set out in Article 3.5 (Calculation of Qualifying Value Content) of not less than [...] per cent;

“CTC, except from [...]” means the requirement to undergo a change in tariff classification at the respective HS 2, 4 or 6-digit level, provided that the non-originating materials from the specified chapter, heading or subheading are not used in production of the final goods.

3. The requirement of change in tariff classification shall apply only to non-originating materials.
4. The origin criteria specified in the third column of the list define the minimum requirements for production operations. A greater number of production operations made beyond the minimum requirement shall also confer the origin of goods.
